

# Parabolic Solar Cooker

Outdoor Ovens, Solar Cooker Stove Kits, 1800W Portable Parabolic Solar Cooker, Concentrating Solar Cooker, 59 Inch Foldable Solar Cooker, Solar Cooker Parabolic Portable Stoves Magnesia

## Solar Powered:

The solar stove harnesses the power of the sun by reflecting and intensifying its rays toward your cookware. Simply point it towards the sun for fast, delicious meals on the back patio.

Plate Thickness : 0.4mm

Diameter : 1500mm/59 "

Focal Spot Temperature : 700--1000°C.

## Advantages :

- Concentrated light spots, high thermal efficiency, convenient operation, small packaging volume, convenient transportation, and long service life; Manual adjustment, simple operation, stable adjustment.
- More Healthy Cooking with solar energy means there is no smoke while you're preparing meals. And you won't get soot or ash in your food like with charcoal grills. you can control the heat by adjusting the reflectors for perfectly grilled meats with that flavorful outer crisp and tender slow-cooked insides.

## Applications :

Our Talak products are perfect for cooking in the backyard or patio. Whether it's a hot summer day or a sunny winter afternoon, the solar cooker is ready to use as long as there is sunlight. It also reaches these temperatures 6-7 times faster than a charcoal grill. For cooking and boiling water.
